

Thank you for your interest in **fleetwoods**! We are pleased to be selected as your custom manufacturing partner. As your partner, we are committed to providing you with the best quality products and customer experience possible. We have been exceeding the needs of other custom cabinetmakers since 1991. During that time we have built a reputation among cabinetmakers for delivering:

- Highly consistent lead-times, which are some of the fastest in our industry. We supply you with the products you need when you need them.
- Flexible goals and flexible relationships, which leads to a business relationship designed to fit your needs and a manufacturing partner with a can-do attitude.
- Technological advances that offer you some of the tightest manufacturing tolerances paired with a dedicated staff to attain superb craftsmanship.
- Excellent customer care – we are committed to giving you the best experience possible with each and every order, day in and day out.

We welcome you to **fleetwoods** and look forward to a long and mutually rewarding relationship. Thank you again for choosing to be our valued customer.

Ordering Guidelines

If you have questions after reviewing the ***fleetwoods*** catalog, please feel free to call us. We look forward to providing you with the products and service that you need.

If you do not see an item listed in our catalog that you need, please call as we are continually updating our product line.

- For a quote, please fill out the ***fleetwoods*** order form, located in the back of this catalog. We ask that all quotes are faxed or emailed, for accuracy purposes. Please let us know of any time or shipping limitations you may have at the time of the quote.
- Our standard turnaround time for a quote is 24 hours. In some cases we may need to contact you for clarification or to gather more information for special or unique designs/wood species, which may extend quote time.
- For information on any trade discounts, please call our office and you will be directed to one of our Sales Representatives.
- Our lead times depend on the style of door ordered. Standard lead times are 6 working days with delivery on the 7th working day. Orders received by 9:30 am on a working day will be considered 'day 1' of that project, orders received after that time will be processed on the next working day. Some door styles may take longer (i.e. miter doors). Other accessories can be delivered within 2-3 days or with your door order.
- We appreciate being notified immediately if there is a problem with your order. If we are responsible for a damaged or incorrect order, we will make every effort to remake the defective product as soon as possible. Damaged or rejected product must be kept and returned for review.

Thank you again for your interest in ***fleetwoods***. We look forward to a long and mutually rewarding relationship.

Mitred Doors

Fleetwoods is pleased to provide its customers with the design option of a high quality construction mitered door. These doors employ a uniquely engineered joint using both dowels and micro-fingerjoints.

1. All mitered doors are currently subject to CUSTOM scheduling. Please call when ordering for a schedule estimate.
2. All mitered doors are style #290- with the appropriate configuration suffix.

290-01

290-02

3. Mitered frames can be combined with almost any panel profile to create a wide range of appearances.
4. Like dovetail drawers, a small portion of the joint is visible on the edge of the door (about 3/16").
5. Mitered doors are provided with finished outside edges and finish sanded fronts unless otherwise specified when ordering.
6. Natural wood products will expand and contract in response to changes in environmental moisture conditions. fleetwoods mitered door joints are specifically engineered to accommodate this natural characteristic while maintaining their mechanical integrity. A 0.010" gap may be present in the miter joint and is considered normal. For this reason, painted finishes are not recommended for application on solid wood mitered doors.
